SUMMARY

Full Stack Developer with 2+ years of experience building fast, scalable, and interactive web applications. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL. Passionate about delivering clean, maintainable code and seamless user experiences across the full stack. Eager to leverage expertise in modern web technologies to contribute to innovative and impactful products.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, Shadcn UI, Mantine UI, Zustand

Backend: Node.js, Express.js, RESTful APIs, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Jira, Zoho, Vercel

EXPERIENCE

Full Stack Developer

Converge Logics

March 2026 – Present

Islamabad, Pakistan

- Developing and maintaining full-stack web applications using Next.js, Node.js, Express.js, PostgreSQL, and Tailwind CSS.
- Designing and implementing RESTful APIs and database schemas to support scalable product features.
- Collaborating with cross-functional teams to deliver end-to-end solutions from UI design to backend integration.

MERN Stack Developer

Metavystic

November 2024 – February 2026

Islamabad, Pakistan

- Built fast, responsive, and scalable web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and Tailwind CSS, boosting user engagement by 20%.
- Integrated RESTful APIs to connect front-end interfaces with backend services, enabling real-time data updates and improving app functionality by 25%.
- Ensured cross-browser compatibility achieving 95% consistency in user experience across Chrome, Firefox, and Edge.

Front End Developer

AKC Creations

July 2024 – November 2024

Remote

- Collaborated with a remote team to design and develop responsive, scalable, and user-friendly web interfaces using React.js and Next.js.
- Developed interactive UIs delivering seamless user experiences with 20% faster load times.
- Utilized Git for efficient code management and team collaboration, meeting 90% of project deadlines ahead of schedule.

PROJECTS

ToetsTester

Next.js, Node.js, Express.js, PostgreSQL, Tailwind CSS, REST APIs

Converge Logics

- Building a full-stack online platform enabling teachers to check and grade exams quickly, with automated workflows that reduce grading time significantly.
- Designing a structured record management system allowing teachers to maintain, filter, and retrieve student exam records efficiently.
- Implementing a robust PostgreSQL database schema and RESTful APIs to support multi-user access, data integrity, and scalable record storage.

Alignography

Next.js, TypeScript, Tailwind CSS, Mantine UI, Zustand, REST APIs

Metavystic

- Developed a scalable front-end accelerating development time by 25% using Next.js, TypeScript, Tailwind CSS, and Mantine UI.
- Integrated APIs to enable seamless scheduling, data management, and user interactions, boosting feature delivery speed by 30%.

- Implemented Zustand for efficient state management, reducing data-related bugs by 40% and improving overall performance.

AutoMojo

AKC Creations

Next.js, TypeScript, Tailwind CSS, ShadCN UI, REST APIs

- Built a responsive front-end with Next.js, TypeScript, Tailwind CSS, and ShadCN, outperforming competitors like Shopmonkey by 30% in speed.
- Designed intuitive dashboards and workflows for shop owners, cutting task completion time by 20% based on user feedback.
- Integrated APIs to enable features like scheduling, inventory management, and real-time tracking.

Digital Library and Information Gateway

Metavystic

React.js, JavaScript, Mantine UI, Tailwind CSS

- Built a responsive front-end with modules including admin dashboard, user management, and department management, improving navigation efficiency by 25%.
- Optimized UI components for seamless performance, reducing user-reported issues by 15%.

Revetment

Metavystic

Next.js, JavaScript, Tailwind CSS, Mantine UI

- Enhanced the UI using Next.js, JavaScript, Tailwind CSS, and Mantine UI, boosting responsiveness across devices.
- Upgraded existing features to improve performance, reducing user load times by 25% on average.
- Optimized data management workflows, cutting processing times by 20% for improved overall efficiency.

Trade Breakout

AKC Creations

Next.js, TypeScript, Tailwind CSS, ShadCN UI, Charts

- Developed a real-time market analysis platform with 30% faster load times using Next.js, TypeScript, and ShadCN.
- Integrated advanced search and filters enabling users to pinpoint breakout opportunities with 95% accuracy.
- Built stock detail modules with interactive graphs and charts, enhancing data clarity by 30%.

EDUCATION

PMAS Arid Agriculture University

Rawalpindi, Pakistan

B.S. in Software Engineering

2020 – 2024
